-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) ☒ Responsive to communication(s) filed on 24 May 2006.  
2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 3-8, 10-20 and 22-24 are rejected under 35 U.S.C. 102(e) as being anticipated by Pavlacka et al. [US 6,987,665].

Regarding claims 1 and 13-15, Pavlacka et al. disclose a housing (figures 5-11) for an electronic system, the housing comprising:

- an interface opening (figures 2 and 5-7) operable to expose an interface connector (30) that is mounted to an interface held by the housing and coupled to circuitry disposed within the housing; and
- a passage (52) having a first opening (48) adjacent to the interface opening, having a second opening (54) and a third opening (54), wherein at least one of the openings opens to an environment outside the housing without exposing the circuitry to the outside environment (figure 6-7), the passage being operable to hold a cable communication medium (16, figures 8-9) that includes a communication connector (figure 8) attached to the interface connector and that extends from the interface connector through the first opening and the second or third opening.

Regarding claim 3, Pavlacka et al. further disclose the housing including a back comprising the interface opening (an opening as shown in at a right corner of figure 11); and a top (42, figure 11) covering the passage.

Regarding claim 4, Pavlacka et al. disclose the third opening being adjacent the second opening (figure 11).

Regarding claim 5, Pavlacka et al. disclose the third opening ( ) is adjacent to the second opening, and the housing includes a top covering the passage, and a cap operable to close the third opening (figure 11).

Regarding claims 6-7, Pavlaka et al. appears to disclose the passage being substantially straight/rectangular (figure 7).

Regarding claim 8, Pavlacka et al. disclose wherein the first opening has an area, the second opening has an area, and the area of the first opening does not equal the area of the second opening (figures 10-11).

Regarding claim 10, Pavlacka et al. disclose the passage being tapered. (figures 6-11).

Regarding claims 11-12, Pavlacka et al. disclose wherein the housing further comprises a storage compartment (a space in the housing between a cover 42, and divider 50, 40, figure 10), and the second and third openings opens to the storage compartment.

Regarding claim 22, Pavlacka et al. disclose wherein the communication medium extends through the interface opening (figure 10).

Regarding claim 16-20 and 23-24, the claimed method steps are inherent in the product structure.

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 9 is rejected under 35 U.S.C. 103(a) as being unpatentable over Pavlacka et al.

Regarding claim 9, Pavlacka et al. disclose the instant claimed invention except for the area of the first opening is smaller than the area of the second opening.

The specific area of each opening depends on the requirement of the manufacturing. Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to design consideration based on the area needed being used for holding how many cables through the openings.

***Response to Arguments***

5. Applicant's arguments with respect to claims 1, 3-20 and 22-24 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hung S. Bui whose telephone number is (571) 272-2102. The examiner can normally be reached on Monday-Friday 8:30AM-6:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kamand Cuneo can be reached on (571) 272-1957. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
